DIVIDEND

The Board of Directors of the Company are pleased to recommend a dividend of 50% i.e. Rs.5 on equity share of Rs. 10 each for the fiscal 2010. The dividend, if approved by the Members in the ensuing Annual General Meeting, would absorb Rs. 583.04 lacs (Rs.292.49 lacs previous year) out of the distributable surplus.

The Register of Members and Share Transfer Books will remain closed from September 18, 2010 to September 25, 2010 (both days inclusive).

APPROPRIATIONS

After setting aside the amount of Rs.583.04 lacs for dividend including dividend distribution tax and after transferring an amount of Rs. 157.85 lacs (Rs. 112.53 lacs previous year) to General Reserve, the balance amount of Rs. 837.63 lacs (Rs. 720.25 lacs previous year) is being retained in the Profit and Loss Account.

GLOBAL AND INDIAN ECONOMIC SCENARIO

Uncertainty continues to cloud the shape and pace of global

economic recovery. Just as the US seemed to be emerging from its worst recession since the Great Depression, Europe finds itself in the midst of a major crisis. Private spending in advanced economies continues to be constrained and inflation remains generally subdued, making it likely that fiscal and monetary stimuli in these economies will continue for an extended period. Emerging market economies, on the other hand, seem to be significantly ahead on the recovery path, but some of them are also facing inflationary pressures. This has prompted central banks in some of these countries to begin phasing out their accommodative monetary policies.

In India, the economic recovery, which began around the second quarter of 2009-10, has since shown sustained improvement. Industrial recovery has become more broad-based and is expected to continue in the wake of rising domestic and external demand. Reversing a nearly year long decline, exports and imports have both grown since November 2009. Flow of credit from both bank and non-bank sources has picked up and overall business sentiment has turned distinctively positive. India's GDP Growth in 2009-10 has been estimated at 7.4%, driven by growth in the industrial and services sectors. The abundance of liquidity in the system ensured that interest rates remained reasonable for most part. The fiscal deficit for 2009-10 stood at 6.6% of GDP, slightly below the full year's estimated of 6.7%. In the Budget for 2010-11, the fiscal deficit for FY 2011 has been estimated at 5.5% of GDP, a reduction of 1.2% from last year's estimate. However, the windfall mobilization through the recent 3G Licences in Telecom Sector further reduce the deficit. The developments on the inflation front are, however, far from encouraging. The wholesale price index (WPI) inflation climbed steeply from 1.5% in October 2009 to 10.2% by May 2010.

PERFORMANCE

The company has achieved a record sales turnover of Rs 325.36 Crore registering a growth of 17.7% per cent. Profit before tax of stood at Rs.22.52 crore and profit after tax at Rs. 15.75 crore during the year as against Rs.15.96 crore and 11.08 crore respectively in the previous year.

Automobile sector in India was one of the major beneficiaries of the fiscal stimulus package unleashed by the Indian Government in the aftermath of a Global Financial Crisis. Demand for the Automobiles - particularly the two-wheeler segment 'remained' pretty buoyant throughout the year. Your company's principal customer Hero Honda continues to straddle two-wheeler industry in India and sets new benchmark of excellence in production,

quality, customer satisfaction year-after-year. Consequential positive impact on your company's business is reflected in the performance during the year.

OUTLOOK - AUTOMOBILE INDUSTRY

Two-wheeler Industry Zooms Past 10-M Landmark in FY10, Emerging As A Strong Competitor to China

The domestic two-wheeler industry has whizzed past the key milestone of making and selling one million units in the Month of March 2010. For the first time, the industry also crossed the 10-million mark in a fiscal by selling 10.5 million two-wheelers in 2009-10.

In 2009-10, total two-wheeler sales were up by 24.52% over the previous fiscal, which stood at 8.4 million, according to CMIE data. The market is dominated by motorcycles, which account for nearly 77-78 % of all sales, followed by scooters at 15-16 %, and the rest by mopeds.

With these heady numbers, India has emerged as a strong competitor to China, the largest two-wheeler market with 15-16 million bikes. But China's electric two-wheeler market is another 10-million strong. In India, e-bike hasn't taken off yet.

The Indian two wheeler market with an annual domestic sale in excess of 10 million units. Riding high on the back of the rural boom, the Indian two-wheeler industry is all set to cross 13.4 million units by 2013-14 from the 2009-10 level of 10.46 million units, witnessing a CAGR of 9.7%, according to a latest report of CARE Research. Indian automobile industry records a 26 percent growth in the domestic sales during 2009-10.

The automobile sector of India is now the seventh largest in the world. The country is the largest manufacturer of motorcycles, second largest producer of two-wheelers and the fifth largest producer of commercial vehicles in the world. In the last few years, the Indian two-wheeler industry has seen spectacular growth. The country stands next to China and Japan in terms of production and sales respectively. Several Indian automobile manufacturers have spread their operations globally as well, asking for more investments in the Indian automobile sector. Industry experts have visualized an unbelievably huge increase in automotive sales figures over the immediate future. In the year 2009-10, India rose to be the fourth largest exporter of automobiles following Japan, South Korea and Thailand.

MANAGEMENT DISCUSSION ANALYSIS

Munjal Auto Industries Limited (MAIL) is a HERO Group Company and an investor in MAIL has the benefit of the Group's focussed involvement in Automobile Industry and as a player of formidable repute.

Positive sentiment and a renewed confidence during 2009 in the India growth story replaced the fear and uncertainty prevalent in the Year 2008. Your Company used the crisis to reboot and reinvent itself and to reignite its dreams. It has braced with the challenges thrown up by challenging times on the bedrock of support of its principal customer Hero Honda and is poised to surge ahead with aspiration, inspiration and motivation.

INDUSTRY STRUCTURE AND DEVELOPMENT

Indian automobile industry will achieve mass motorization status by 2014.

Industry Overview

Since the first car rolled out on the streets of Mumbai (then Bombay) in 1898, the Automobile Industry of India has come a long way. During its early stages, the auto industry was overlooked by the then Government and the policies were also not favourable. The liberalization policy and various tax reliefs by the Govt. of India in recent years has made remarkable impacts on Indian Automobile Industry. Indian auto industry, which is currently growing at the pace of around 18 % per annum, has become a hot destination for global auto players like Volvo, General Motors and Ford.

A well developed transportation system plays a key role in the development of an economy, and India is no exception to it. With the growth of transportation system the Automotive Industry of India is also growing at rapid speed, occupying an important place on the 'canvas' of Indian economy.

Today Indian automotive industry is fully capable of producing various kinds of vehicles and can be divided into 03 broad categories : Cars, two-wheelers and heavy vehicles.

Snippets

- The first automobile in India rolled out 1897 in Bombay.
- India is being recognized as potential emerging auto market.
- Foreign players are adding to their investments in Indian auto industry.
- Within two-wheelers, motorcycles contribute 80% of the segment size.

- Unlike the USA, the Indian passenger vehicle market is dominated by cars (79%).
- Tata Motors dominates over 60% of the Indian commercial vehicle market.
- 2/3rd of auto component production is consumed directly by OEMs.
- India is the largest three-wheeler market in the world.
- India is the largest two-wheeler manufacturer in the world.
- India is the second largest tractor manufacturer in the world.
- India is the fifth largest commercial vehicle manufacturer in the world.
- The number one global motorcycle manufacturer is in India.
- India is the fourth largest car market in Asia - recently crossed the 1 million mark.

INDUSTRY OVERVIEW AND TRENDS

Indian economic growth recovered strongly and relatively faster from the effects of the global financial crisis. The Government responded quickly to the crisis with a larger stimulus package including reduction in indirect taxes and other fiscal and monetary measures to boost demand. As a result, industrial growth made rapid strides, registering a double digit increase in the second half of Financial Year 2010, as compared to nearly zero growth in the comparable period of financial Year 2009.

However, given the poor monsoon and rise in global commodity prices, inflation has risen sharply since November, 2009, containing inflation is likely to remain a key challenge for the Government and policymakers in the near term.

INDIAN AUTOMOTIVE SECTOR

The global Automobile Industry was one of the worst affected by the financial crisis. Global Automobile production declined by 13.5% in the year 2009, after a 3.7% decline in the year 2008 (Source: OICA). Recognizing the importance of the Automobile Industry to their economies and employment, many Governments in developed and emerging markets responded with measures to boost demand for Automobiles, especially through providing incentives for scrapping old vehicles (also known as "cash for clunker" Schemes) and by reducing taxes.

Helped by the Indian Government's stimulus package (primarily comprising a 6% point reduction in excise duty) and multiple new product launches by manufacturers, the Indian Automobile Industry registered a healthy growth of 27.9% in Financial Year 2010 as compared to a decline of 4.8% in Financial Year 2009.

OPPORTUNITIES AND THREATS

The current low level of vehicle ownership in India is 14 per 1,000 people as compared with the world average of 120 per 1,000 which implies a huge opportunity for growth of the Automobile Industry. India's Automotive Sector is expected to be one of the fastest growing in the world over the next several years. However, the Company faces increasing competition from the presence of a large number of automotive components making companies in the country.

Semi Urban markets have been among the positives that are pushing up demand which would be on the radar of two-wheeler makers.

Strong rural demand plus higher income levels have helped the two-wheeler industry to stage strong month-on month sales. Over the next three-to-four years growth rates would be reasonably higher.

The Automobile Industry is also a key contributor in economic growth. The Indian Government's Automotive Mission Plan 2016 (AMP 2016) envisages a doubling of automotive industry's share of the Indian economy by 2016. However, stricter emission norms and an increase in focus on public transportation may discourage use of automobiles as a means of personal transport.

Increased Industrial Investments in Industries, around cities and towns in India and the consequent growth in industrial activity will lead to increased incomes of a rising middle class, resulting in a growing demand for two-wheelers with which your company's future is inextricably linked.

RISK AND CONCERNs

Given that the Indian Automobile Industry is expected to be one of the fastest growing markets in the world, many global players are significantly expanding their presence in India. There is a concern that this will result in an ever increasing level of competition and intense pressure on the profit margins of all participants.

Increased competition will lead to more frequent product launches in all industry segments and raise customer expectations in terms of performance, quality and technology, leading to higher costs. Your Company, as an important player in auto components sector within the Automobile Industry, views all of this as an opportunity and a challenge, a concurrent and symbiotic force to reckon with.

REGULATIONS

Stringent regulatory norms are being introduced to safeguard the environment, especially in the area of emissions. Many of these measures are likely to result in an increase in costs which cannot

always be passed on to customers through price increase in a highly competitive market environment.

FUEL PRICES AND ALTERNATE FUELS

Fuel prices are an important element of the overall cost of ownership of any vehicle, including the two-wheeler.

There is also a growing customer trend, as well as promotion by the Government, for vehicles powered by CNG, LPG and electric batteries, as well as hybrid power trains. Any major increase in fuel prices will tilt the scale in favour of electric-powered two-wheelers

ALTERNATE MODES OF TRANSPORTATION

While the thrust by the Government on development of urban infrastructure would lead to overall economic development and improve living standards, it is also likely to provide alternate modes of transport for daily commuting such as Bus Rapid Transit System ("BRTS"), Metrorail, monorails, etc. Also growing urbanization and vehicle population is leading to growing pollution, congestion and shortage of parking spaces in cities. These trends would likely discourage the use of automobiles as a means of personal transport, though, given the aspirations of Indian consumers, it may not have a significant impact on the demand for personal vehicles.

Demand squeeze for automobiles, particularly for two-wheelers, arising from a slew of variables like natural calamities, erratic monsoon, internal challenges in law and order, political disturbances etc. can upset the apple cart of Indian Automotive Industry

Any adversity in the market conditions - particularly that of two-wheeler industry - due to high interest rates, stringency in availability of finance to a prospective buyer can be a dampener in the overall demand of two-wheelers and the components made by the company, which have its demand deduced from that of two-wheelers.

FINANCIAL MARKET CONDITIONS

Availability of credit and affordable interest rates are important facilitators for automobile two-wheeler sales. Any adverse change in these factors would impact demand.

OUTLOOK

In the long term, the Indian economy is projected to grow rapidly and demand conditions are expected to remain strong. However,

ANNEXURE 'II' TO THE DIRECTORS' REPORT

in the near term, there are challenges in terms of higher commodity prices, rising inflation and appreciation of the rupee which will have a bearing on demand and profitability.

Both the Automotive and two-wheeler segment within it, with their update of product portfolios and their exploration of global horizons will strive to maintain their leadership position in their respective markets. Simultaneously, your company will continue its focus on achieving cost leadership through focused cost optimization, value engineering, improved efficiency measures like supply chain management.

Information as per Section 217(1)(e) of the Companies Act, 1956 read with the Companies (Disclosure of particulars in the Report of the Board of Directors) Rules, 1988

1. Conservation of Energy

The Management is perusing energy conservation with considerable focus and commitment. Effective use of energy, particularly in the hard core manufacturing processes of the Company, continues to be an important ingredient of conservation of energy. Optimal utilization of various energy resources like power, fuel and oil is ensured by ongoing measures / steps that improve power factor and other consumption.

2. Technology Absorption, Adaptation and innovation

Company is having dedicated team for new developmental activities. Engineering department of the Company is continuously working on development of components for new models of automobile and also development of alternate processes to enhance quality and to reduce cost.

Following measures were adopted by the Company during the year under review:

SCHEDULES FORMING PART OF ACCOUNTS FOR THE YEAR ENDED 31st MARCH, 2010

SCHEDULE - 14 SIGNIFICANT ACCOUNTING POLICIES, NOTES ON ACCOUNTS AND INFORMATION PURSUANT TO PROVISIONS OF SCHEDULE VI OF THE COMPANIES ACT, 1956

I. SIGNIFICANT ACCOUNTING POLICIES

The financial statements are prepared under the historical cost convention in accordance with applicable accounting standards and the relevant provisions of the Companies Act, 1956. The accounting policies have been consistently applied by the company and are consistent with those used in the previous year. Significant accounting policies followed by the company are as stated below:

1) System of Accounting

The company has adopted accrual basis of accounting.

2) Fixed Assets

- a) All fixed assets are stated at cost less accumulated depreciation. Cost is inclusive of freight, duties (net of Cenvat credit) and other incidental expenses in accordance with the applicable Accounting Standards.
- b) Cost of leasehold land has not been amortized over lease period due to the long tenure of the lease and smallness of amount.
- c) Depreciation has been provided on straight-line method in the manner and at the rates as prescribed in Schedule XIV of the Companies Act, 1956; except that in case of expenditures on Information Technology related software, including their license fees and implementation costs, and vehicles the rate of depreciation is charged at a higher rate of 25 percent considering their useful life of 4 years as estimated by the management of the company.

3) Investments

Current Investments are stated at cost or fair value determined on individual investment basis, whichever is lower.

4) Inventory

- a) Raw Materials, stores and spares, packing materials, components, work in process and finished goods are valued at cost or net realisable value whichever is lower. Cost of purchases is ascertained on first in first out (FIFO) method.
- b) Cost of Work in Process and Finished Goods include cost of materials and other inputs plus appropriate share of labour, overheads. Excise duty is included in the value of finished goods inventory.
- c) Scrap is valued at estimated net realisable value.

Provision for obsolescence is made wherever necessary.

5) Revenue Recognition;

Sale of Goods

- a) Sales are accounted inclusive of excise duty but net of sales tax.
- b) Sales are accounted on the date of removal of goods from the factory.

Interest income is recognized on time proportion basis.

Dividend Income is recognized when the right to receive dividend is established.

6) Employees Benefits

Provision is made for short term and long term benefits to employees in accordance with Accounting Standard -15 (further details are given in note no 16) Actuarial gain / loss is recognized in profit & loss account.

NOTES ON ACCOUNTS (Continued)**7) Borrowing Costs**

Borrowing Costs directly attributable to the acquisition, construction or production of qualifying assets are capitalized as part of the cost of the assets till the asset is ready for use. Interest on other borrowing is charged to Profit & Loss Account.

8) Taxation

Provision for current tax is ascertained on the basis of assessable profits computed in accordance with the provisions of the Income Tax Act, 1961.

Deferred tax is recognized, subject to the consideration of prudence, on timing differences, being the differences between the taxable incomes and accounting income that originate in one period and are capable of reversal in one or more subsequent periods at the rates and accordance with laws that have been enacted or substantively enacted as of Balance Sheet date. Deferred tax assets arising from timing differences are recognized to the extent there is reasonable certainty that the assets can be realized in future. Deferred tax assets are reviewed at each balance sheet date for its realisability.

Deferred tax in respect of Haridwar Unit availing deduction under section 80IC of Income Tax Act is recognized in respect of timing differences which will reverse after tax holiday period.

9) Foreign Currency Transactions

Transactions in Foreign Currency are recorded at the rate of exchange prevailing on the date of the transaction. Monetary items denominated in foreign currencies at the year-end are restated in Indian Rupees at their prevailing conversion rates.

Any gain or loss on account of exchange difference either on a settlement of the obligation or on a translation is recognized in the Profit & Loss Account.

Premium arising at the inception of forward exchange contract to hedge an underlying liability of the Company is amortised as expense over the life of the contract

10) Impairment of Assets

The Carrying amounts of assets are reviewed at each balance sheet date to ascertain whether there is any indication of impairment in their value caused by any internal / external factors. An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount. Recoverable amount being the greater of the assets' net selling price and value in use.

11) Operating Leases

Lease charges paid for operating leases are charged to profit and loss account on a straight-line basis over the lease term. Initial direct expenses at the time of inception of lease are charged to Profit & Loss Account.

12) Provision & Contingencies

Provision involving substantial degree of estimation in measurement are recognized when there is a permanent obligation as a result of past events and it is probable that there will be an outflow of resources. Contingent liabilities are not recognized but disclosed in the note.

II. Notes on Accounts

1. In respect of an interest-free LEEP loan availed by the company at the time of the setting up a project at Waghdia, Gujarat by the company, GIIC (A Government of Gujarat undertaking that had disbursed the said LEEP loan on its behalf) had raised a claim of interest amounting to Rs. 17 lac payable since 1997. GIIC has claimed that there was a delay in repayment of first 2 installments of the said LEEP loan repaid by the company in earlier years. The Company disputed this. Negotiation in the matter is continuing. Meanwhile, after adding interest @ 24% on the aforesaid disputed amount of interest; GIIC has raised its claim further to Rs. 194 Lac up to 31.12.05 (Previous Year: Rs. 194.00 Lac). No provision is made in books of accounts for the above interest claim as the

Company expects that such a claim of GIIC is not tenable.

2. As the Company's business activity falls within a single primary business segment viz. Motorcycles Parts and single geographical segment, the disclosure requirements of Accounting Standard (AS-17) "Segment Reporting", issued by the Institute of Chartered Accountants of India are not applicable.
3. The Company as well as various industrial units in Waghodia have disputed their liability to pay octroi duty and hence the company deposited the amount of Rs. 15.45 lac under protest which is held in a separate bank account in the name of Sarpanch, the Waghodia Gram Panchayat and the Company as the second party under a Court directive. By virtue of a subsequent notification of the State Government of Gujarat, the company, like other industrial units in the notified area of Waghodia, is not required to pay the octroi Duty from 19th July, 1997. The company believes it has no liability for octroi duty even for the earlier period. Association for Industrial Units in Waghodia has filed a suit for recovery of amounts paid under protest, which is still pending for final decision. Therefore, the said amount of Rs.15.45 Lac (Previous Year Rs.15.45 lac) is included in Balance Sheet under the head "Loans & Advances" and no provision is made for liability of octroi in this respect. In the absence of clarity regarding rights of respective parties, interest credited by the bank amounting to Rs.11.42 Lac (Previous Year: Rs.10.50 Lac) on the aforesaid amount till 31st March 2010 is not accounted for.
4. Company has paid excise duty of Rs.23.61 lacs (previous year Rs.23.61 lacs) which is claimed by the company to be refundable and shown under loans and advances. The company has filed an appeal and the matter is pending with the Custom, Excise & Service tax Appellate Tribunal.
5. Expenditure on insurance includes Rs.NIL Lacs (previous year Rs.17.91 Lacs) being premiums paid under Key man Insurance scheme to cover risks on life of Key Management personnel (Total premium paid Rs. 112.68 lacs until 31.03.2010). Benefits to the Company under the said scheme depend on various factors including resignation/survival of the said personnel or premature surrender of the policy. Such benefits will be accounted in the year in which they become due.
6. Figures of the previous year have been regrouped and/or recast, wherever considered necessary to conform to the groupings of the current year.
7. The company has amounts dues to Micro, Small and Medium Enterprises under Micro, Small and Medium Enterprises Development Act, 2006 as at 31st March, 2010
